EVC 2

Built smart. Made yours.

BUILT FOR YOU

5 interchangeable coloured front plates, including real Kebony® wood option. 25 Languages supported in the mobile app. All settings adjustable for user comfort and needs. Whitelabeling possibilities with custom logo or colour possible.

ENGINEERED FOR INTELLIGENCE

Use phase balance capabilities in tandem with solar integration and dynamic load balancing to make the most of available site power. Increase customer charging speeds, leverage dynamic energy market rates and lower the cost per kilometre driven.

SEAMLESSLY CONNECTED

With 4G, LAN, and Wi-Fi, be online-ready. Best in class direct OCPP integration, with lightning-fast response rates, excellent uptime and custom OCPP commands. Dedicated remote management software for easy setup and keeping on-site visits to a minimum.

TESTED FOR TOUGHNESS

Made in EU with a rigorous QC at every manufacturing step. 36-month standard warranty, extendable up to 60 months. IP56 dust and water resistant. IK10 impact protection. Operating temperature ranges from -30 °C to +50 °C.

Power options

7.4 kW

11 kW

22 kW

Protection

Temperature sensors

OVC III

RDC-DD

Output options

Type 2 socket

Type 2 socket with security shutter

5m cable

7.5m cable

External sensor support

Modbus RTU & TCP

P1 adapter

CT clamp

Connectivity

Bluetooth

Ethernet

4G with Dual SIM (eSIM + regular)

Wi-Fi

NFC

Remote management possibilities

(OCPP) Open Charge Point Protocol

FOTA (Firmware Over the Air)

Control Portal (Remote Management System)

THE RIGHT PARTNER MAKES A DIFFERENCE. HERE'S HOW:

FOCUSED & RESPONSIBLE

Dedicated contact person from first call to years of aftersales support. Nobody is perfect — but we own our mistakes and make sure our challenges don't affect your bottom line.

INVESTED IN YOUR SUCCESS

We're not afraid to show up. Whether closing a major client or launching a critical site, we'll be right there with you. We know how to help drive your growth.

TAILORED TO YOU

From firmware tweaks to full product adaptations — we make it work for your use case. Your feedback shapes what we build.
